

LEVEL II

Level II coursework enhances self-understanding through an integrative, process-oriented approach to the content. Participants will deepen their ability to discern the movement of God's grace in their lives, and to strengthen their ability to communicate with a variety of ministry and leadership styles.

Classes for Level II certification with the Diocese of Tucson are offered in collaboration with the Department of Catholic Schools and the Office of Catechesis. Level II certification invites participants to advance the foundational theological, spiritual, sacramental, and methodological understandings gained in Level I. An application with the pastor's recommendation is required. A follow-up project is also required.

Level II certification is designed for those entrusted with greater responsibility and authority in a ministerial setting. Classes may be taken for personal enrichment. Level II classes may also be taken for renewal of Level I certification. In these instances an application and follow-up project are not required.
